SUMMARY

B.Tech CSE graduate with software engineering internship experience building and deploying full-stack applications using React.js, Node.js, Express.js, MongoDB, REST APIs, and Flask. Skilled in frontend/backend development, authentication, authorization, RBAC, CRUD, database/schema design, API integration, and secure web development. Experienced with third-party APIs, API testing, Git/GitHub, and deployment.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript (ES6+), TypeScript, SQL

Frontend: React.js (Hooks, Context API, state management), HTML5, CSS3

Backend: Node.js, Express.js, REST API Design, JWT Authentication

Databases: MongoDB (Atlas, Mongoose), MySQL, Schema Design

Tools & Deployment: Git, GitHub, Postman, VS Code

AI/ML: NumPy, Pandas, Scikit-learn

CS Fundamentals: Data Structures, Object Orient Programming, DBMS, Operating Systems, Computer Networks, System Design Basics

EXPERIENCE

National Institute of Advanced Manufacturing Technology (NIAMT)

Jun 2025 – Jul 2025

Software Engineer Intern (Hybrid) — Movie Recommendation System

GitHub

- Engineered a content-based recommendation engine using Python, Flask, and CountVectorizer, processing 5,000+ TMDB movie records to generate similarity-based suggestions.
- Developed and integrated a Flask REST API with a React.js frontend using asynchronous API calls, enabling real-time interactive recommendations through a responsive web interface.
- Collaborated with team members using Git and GitHub, contributing through pull requests, code reviews, debugging, feature development, and software quality improvements.
- Impact:** Reduced recommendation latency by **30%** through cosine similarity optimization, enabling faster, more responsive movie suggestions for users.

PROJECTS

TeamFlow: Role-Based Project Management Application

React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs, Vercel, Render

Live GitHub

- Developed and deployed a full-stack project management application with **17 RESTful API endpoints** for authentication, projects, tasks, users, and audit logs.
- Implemented Role-Based Access Control across three roles (Admin, Manager, Member), securing 14 endpoints via JWT-based authorization and Express middleware.
- Built CRUD workflows with request validation, CORS configuration, centralized error handling, and audit logging; tested APIs with Postman and deployed via Vercel and Render.
- Impact:** Eliminated unauthorized access risks by enforcing granular RBAC across API endpoints, ensuring secure, role-appropriate data access for Admin, Manager, and Member users.

CareerPilot: AI-Powered Career and Job Platform

React.js, Node.js, Express.js, MongoDB, Python, Flask, bcrypt, Generative AI API, RapidAPI

GitHub

- Developed a full-stack MERN career platform with secure JWT-based authentication and designed MongoDB schemas for user profiles, resumes, job applications, and extracted skills, powering **10+ RESTful APIs**.
- Built responsive React.js dashboards for resume management, application tracking, and AI-assisted career guidance.
- Developed Flask microservices for resume text extraction, integrating a Generative AI API with structured prompt engineering to generate resume scores, personalized feedback, and skill-gap analysis.
- Integrated RapidAPI-powered job search to fetch and filter live listings by role, location, and employment type.
- Impact:** Automated resume evaluation and career guidance by integrating a Generative AI API, delivering personalized feedback and skill-gap analysis without manual review.

EDUCATION

Sarala Birla University, Ranchi, Jharkhand, India

2022 – 2026

B.Tech – Computer Science & Engineering; CGPA: 9.27/10

Ursuline Inter College, Ranchi, Jharkhand, India

2020 – 2022

Class XII (Science) – JAC Board; 88.6%

CERTIFICATIONS & ACHIEVEMENTS

- Solved 350+ Data Structures & Algorithms problems on LeetCode, demonstrating strong problem-solving and algorithmic skills.
- Certificate of Excellence – Sarala Birla University (2024–25), top academic performer, Computer Science department.
- Cisco CCNA 1 – Cisco Networking Academy.
- Machine Learning – Simplilearn.
