SUMMARY

B.Tech CSE graduate with software engineering internship experience and hands-on experience building and deploying full-stack web applications using React.js, Node.js, Express.js, MongoDB, and REST APIs. Skilled in frontend and backend development, authentication and authorization, RBAC, CRUD operations, database/schema design, API integration, and secure web application development. Experienced in Flask microservices, third-party API integration, API testing, Git/GitHub workflows, and application deployment.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Python, C++, SQL

Frontend Development: React.js, React Hooks, React Context API, State Management, React Router, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, Axios, API Integration, Asynchronous JavaScript

Backend Development: Node.js, Express.js, Flask, RESTful API Design, REST APIs, Express Middleware, Authentication, Authorization, JWT, Role-Based Access Control (RBAC), bcrypt, HTTP-only Cookies, CORS, CRUD Operations, Request Validation, API Security, API Integration, Error Handling, Debugging, Microservices

Databases: MongoDB, MongoDB Atlas, Mongoose, MySQL, Database Design, Schema Design

Tools & Practices: Git, GitHub, Postman, API Testing, VS Code, Vite, npm, Vercel, Render, Web Application Deployment

AI / Machine Learning: NumPy, Pandas, Scikit-learn

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Software Engineering, System Design Basics

EXPERIENCE

National Institute of Advanced Manufacturing Technology (NIAMT)

Jun 2025 – Jul 2025

Software Engineer Intern (Hybrid) — Movie Recommendation System

github.com/PragyaKumari2203/movie-recommender

- Engineered a content-based movie recommendation system using Python, Flask, and CountVectorizer on 5,000+ TMDB movie records, reducing recommendation latency by 30% through cosine similarity optimization.
- Developed and integrated a Flask REST API with a React.js frontend using asynchronous API calls, enabling interactive movie recommendations through a responsive web interface.
- Collaborated with team members using Git and GitHub, contributing through pull requests, code reviews, debugging, feature development, and software quality improvements.

PROJECTS

TeamFlow: Role-Based Project Management Application

React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs, Vercel, Render

Live

GitHub: github.com/PragyaKumari2203/teamflow

- Developed and deployed a full-stack project management application using React.js, Node.js, Express.js, and MongoDB, implementing **17 RESTful API endpoints** for authentication, projects, tasks, users, and audit logs.
- Implemented Role-Based Access Control (RBAC) across **3 roles** — **Admin, Manager, and Member**, securing **14 authenticated endpoints** through JWT-based authorization and Express middleware.
- Implemented CRUD workflows with request validation, HTTP-only cookie-based authentication, CORS configuration, centralized error handling, MongoDB Atlas integration, and audit logging; tested RESTful APIs using **Postman** and deployed the application using **Vercel and Render**.

CareerPilot: AI-Powered Career and Job Platform

React.js, Node.js, Express.js, MongoDB, Python, Flask, bcrypt, Generative AI API, RapidAPI

GitHub: github.com/PragyaKumari2203/CareerPilot

- Developed a full-stack MERN career platform with JWT authentication, bcrypt password hashing, and HTTP-only cookie-based session management for secure user authentication and profile management.
- Designed MongoDB schemas using Mongoose for authentication, user profiles, resumes, job applications, and extracted skills, and developed 10+ RESTful APIs using Express.js.
- Built responsive React.js interfaces for resume management, job application tracking, dashboard statistics, and AI-assisted career guidance using reusable components and API integration.
- Developed Flask-based microservices for resume text and entity extraction, and integrated the Generative AI API with structured prompt engineering to generate resume scores, personalized feedback, and skill-gap analysis.
- Integrated RapidAPI-powered third-party job search services to fetch and filter live job listings based on role, location, and employment type.

EDUCATION

Sarala Birla University, Ranchi, Jharkhand, India

2022 – 2026

B.Tech – Computer Science & Engineering; CGPA: 9.27/10

Ursuline Inter College, Ranchi, Jharkhand, India

2020 – 2022

Class XII (Science) – JAC Board; 88.6%

CERTIFICATIONS & ACHIEVEMENTS

- Solved 350+ Data Structures & Algorithms problems on LeetCode, demonstrating strong problem-solving and algorithmic skills.
- Certificate of Excellence – Sarala Birla University (2024–25), top academic performer, Computer Science department.
- Cisco CCNA 1 – Cisco Networking Academy.
- Machine Learning – Simplilearn.
